Building a Chatbot using Pandora bots

About pandorabots:- Pandorabots is a web based applications that helps user to make a chatbot.

➤ Go to the website **pandorabots**.

The webpage is available as shown below

- Using pandorabots we can create many chatbots for many services.
- Click on sign-in and create your account.
- Click on my bots option on the side panel a pop-up box would appear as shown below.

The image shows a 'Create Bot' pop-up form. It has a title bar with 'Create Bot' and a close button. The main text says 'Please specify your bot's name, language, and optional base content.' There are three input fields: 'Name:' with a text box and a note 'This name is for your internal use only. It must be between 3 and 62 lowercase letters and numbers.', 'Language:' with a dropdown menu showing 'English', and 'Content:' with a dropdown menu showing 'Blank Bot'. At the bottom right, there are two buttons: 'Cancel' and 'Create Bot'.

- In the name section enter the name of the bot in lowercase alphabets.
- In the language option select the required language for your bot
- In the content select which type of bot you are making.
- After entering the required details click on create bot.

Create Bot

Please specify your bot's name, language, and optional base content.

Name: gitam1
This name is for your internal use only. It must be between 3 and 62 lowercase letters and numbers.

Language: English

Content: Small Talk

Adding base content files... 79%

Creating bot...

Cancel Create Bot

- After creation click on deploy on the side panel you will enter to a new interface named **“sandbox”** click on internal bot directory set-up option a pop-up box appears.

Add to Bot Directory

Adding your Sandbox bot to the Pandorabots Bot Directory makes it available for other botmasters to discover and chat with, and is a great, free way to collect chatlogs during development. Note: Bot Directory interactions do not count against your monthly limit.

Type: Assistance

Name:

Description:

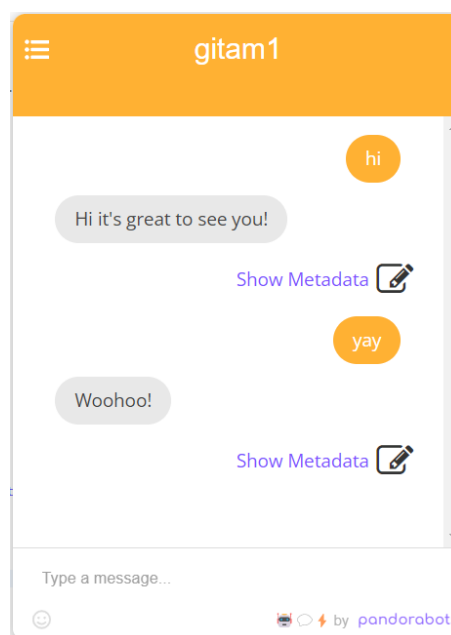

☐ In publishing my bot to the Pandorabots' Bot Directory, I represent and warrant that my bot does not violate the Pandorabots [Terms of Service](#), contain offensive or inappropriate content or spam, and is not a boring FrankenZombieBot with no content at all. I understand that my bot may be removed if it is deemed to be in violation or at Pandorabots' sole discretion.

Cancel Add

- Enter the required details i.e; type name and description.
- After entering click on add.
- After adding click once again on deploy and click on chat option available on right bottom.

- You will be able to see the bot we created with the user entered name

- In the above pic we can see the chat.
- The creator can also alter the messages answered by the chat-bot.

```

- In the personality of the bot, we can alter the messages and can also make bots that help in showing the map of a particular city.
- By using the pandorabots we can create chat-bots for different uses.
